The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations
U.S. House of Representatives
Washington, D.C. 20515

Dear Chair Cole and Ranking Member DeLauro:

I am requesting \$4,000,000 in funding for the Santa Cruz Wharf Resilience and Rehabilitation Project in Fiscal Year 2025. The entity to receive funding for this project is the City of Santa Cruz, located at 809 Center Street, Santa Cruz, California 95060. The project will be located at Santa Cruz Wharf.

This project will leverage \$9.6 million in local and state funding for urgent repairs and retrofits to accelerate the resilience and adaption strategies outlined in the Santa Cruz Wharf Master Plan. Anticipated repairs and retrofits are already fully permitted and need only final bid set plans to proceed to construction. In addition to immediate repairs and upgrades, the project will also advance plans for new multimodal public access, universally accessible boat landings, resilience widening, and new security gates to a grant-and-shovel-ready state for future construction.

This project is an appropriate use of taxpayer funds because the Santa Cruz Wharf is an integral part of the City of Santa Cruz's economy and culture. The Santa Cruz Wharf attracts over 2 million annual visitors and offers many recreational and commercial opportunities. Over the past two winters, aging Wharf infrastructure has sustained significant damage from increasingly intense storms and suffered two partial collapses at the end of the Wharf in 2023 and 2024. As a result, the site of a business which previously employed over 80 people and generated \$3 million in sales annually, will need to be demolished to retrofit the end of the Wharf.

The project has a federal nexus because the funding provided is for purposes authorized by 46 USC sections 54301(a)(8) and 54301(b).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Jimmy Panetta
Member of Congress
